

Indoor Vertical Farm for herbs, micro greens, and exotic crops.

Grow premium crops.

Sell at premium prices.

Create a consumer brand.

A Small Space. A Real Business.

HNI Demand

High net-worth customers willing to pay significant premium for pesticide-free food.

HoReCa Demand

Star hotels, restaurants, and cafes need reliable supply of fresh exotics year-round.

A 500 sq ft indoor setup can supply a focussed premium market - year round.

Farm As a Factory. Reliability. Quality. Consistency.

Reliable Production

Grown under controlled conditions independent of external climate or season.

Features

Pesticide-free by design.

Up to 10x yield of conventional field farm.

Operable from a small room, garage, warehouse or a dedicated facility.

High Value Crops. Premium Pricing Market.

Micro Greens

Fast cycle. High repeat demand.
Hotels, cafes and health conscious buyers.

Exotic Greens and Herbs

Consistent demand from star hotels.
Off-season price premium from all buyers.

Salad Greens

Targeted at health conscious and HNIs.
D2C subscription. Higher pricing power.

Start Small. Or Dream Big.
