

Climate Controlled Farm for Mushrooms.

Got 5,000 sq. ft agricultural land?

Want tax-free income, year after year?

Grow a crop that never goes out of demand.

Year Round Demand In An Ever Growing Segment.

Daily Demand

Individuals. Hotels. Restaurants. Processors.
All-season. All-weather. Consistent.

Fresh Supply Gap

Fresh mushrooms are highly perishable.
Local supply means better quality & price.

Growing Market

Rising protein awareness and HoReCa
expansion leading to 12%+ annual growth.

Indian mushroom consumption is 90%
below the world average creating a rare,
multi-year, untapped growth opportunity.

Traditional Farming Has Inherent Limitations.

Traditional Setup

Seasonal production.

Manual climate management results in high contamination risk and inconsistent yield.

Climate Controlled Setup

Year-round production.

Precision climate management results in consistent quality and better yield.

Right infrastructure converts a seasonal activity into a regular income asset.

One Infrastructure. Multiple Product Lines.

Button Mushroom

High demand. Lower price.

Requires low temperature and more infra.

Oyster Mushroom

Growing demand. Premium price.

Suited for warm climate. Needs less infra.

Exotic Mushrooms

Shiitake, Milky, Chestnut, Portobello.

Can be grown in same setup as for button.

Through precise climate control same infra
can be used to grow different varieties.

**Start Small.
Or Dream Big.**

Mushroom Production Unit

Area needed: 5,000 sq ft +.

Investment budget: 70 L +.

Buy spawn and compost from others.

Spawn, Composting & Production Unit

Area needed: 20,000 sq ft +.

Investment budget: 150 L +.

Sell spawn and compost to others.

Financial support available through Govt. subsidy, and interest waiver scheme.

CityGreens Approach

We are in it for the long term.

Your Farm, Designed for You

We understand your goals.

We design and build your farm.

The Right Setup, Every Time

We help you choose structure and system.

We power it with patented technology.

Hands-On Support

We supply trained farm operators.

We provide continuous agronomy support.

Market Backed

We buy your produce.

We manage the credit risk for you.

Why Farm-Entrepreneurs Choose CityGreens.

India's most awarded agri-tech startup
in controlled environment agriculture*

**as covered by The Financial Express*

5+ Patents

23+ Awards

36+ IPs

100 L+ Govt. Grants

Winner
Agritech Startup Grand Challenge
Startup Mahakumbh 2025

Mushroom Needs Precision

Mushroom farming is an under-penetrated opportunity that has potential to generate long term income.

All it takes is the right technology, the right set-up, and the right partner.
